

BLACK ⚡ ROSIE

The female Tribute to AC⚡DC

Attention! High Voltage!

There are many AC/DC cover bands, but none like Black Rosie. Those who think that Hard Rock is a man's domain are seriously mistaken! Black Rosie presents the music of their Australian heroes AC/DC, one of the biggest, baddest, and most successful rock bands ever, with a drive all their own.

Black Rosie has performed over 200 concerts in Europe since 2006, performing alongside such bands as T-Rex, Doro Pesch, Tito & Tarantula, Subway to Sally and many more. Whether it's at Motorcycle rallies for 35,000 or in the club scene, the band leaves the same unforgettable impression. They've rocked the Kieler Woche, blown away the witches at the Walpurgisnacht, and partied hard at the Osnabrücker Maiwoche. The five women have even personally rubbed elbows with the Young brothers and Cliff Williams themselves – photographic evidence can be found on the website!

The professional musicians that make up the band come from various corners of Northern Germany and can't imagine life without music, fans, and Rock and Roll. They live the music they make, and this energy is projected to each and every fan. Front singer Karo Blasek delivers with a huge voice and incredible stage presence. "Karo is a real bomb who gets the crowd going. A bundle of energy!"

This band is not just for the high voltage fans, but is an act not to be missed by anyone. Black Rosie will have the place cookin' and makes every evening something to remember!

LET THERE BE ROCK...
